Dymo Labelling Systems

**LabelManager 210D Label Printer**
- Utilises 3 Tape widths (D1 tape) - 6, 9 & 12mm
- Easy navigation from start to print
- Prints 1 or 2 lines per label (on 9mm)
- Quick access buttons to symbols and diacriticals (e.g. é, à, ç,...)
- Automatic power-off to extend battery life or adapter as an accessory
- 6 font sizes, 7 styles, 8 different boxes to customize your label
- Stores up to 9 labels and offers the possibility to insert saved text

**LabelManager 220P Label Printer**
- Utilises 3 Tape widths (D1 tape) - 6, 9 & 12mm
- Easy navigation from start to print
- Prints 1 or 2 lines per label (on 9mm)
- Easy text entry by using your thumbs
- Quick access buttons to symbols and diacriticals (e.g. é, à, ç,...)
- Auto-power-off to extend battery life or adapter as an accessory
- 6 font sizes, 7 styles, 8 different boxes to customize your label
- Stores up to 9 labels and offers the possibility to insert saved text

**LabelManager™ 420P**
High-Performance Portable Label Maker with PC or Mac®
Connect the LabelManager™ 420P to your PC or Mac® and use Dymo LabelSoft® to design labels on your computer screen, with barcodes, logos or graphics - or to print batches of labels from text in spreadsheet or database files. When disconnected from your computer, the LabelManager™ 420P label maker is a portable labelling powerhouse with an easy to use interface, quick access keys and plenty of fonts and text effects. Plus it runs on a rechargeable lithium-ion battery, so you’re always ready to label.
- Large 4-line backlit display - shows text effects on screen before your print
- 8 fonts, 7 font sizes, 10 text styles, 8 boxes plus underline
- Quick access keys for entering diacriticals, currency and other symbols
- Powered by a rechargeable lithium-ion battery - no more disposable AA battery expense and inconvenience

**LabelWriter™ 450**
Professional label printer for PC and Mac®
- Take the hassle out of label printing with the Dymo LabelWriter™ 450
- Prints up to 51 labels per minute (4-line address)
- Includes proprietary Dymo Label™ v.8 software
- Uses thermal printing technology - no expensive ink or toner needed - ever!
- Print crystal-clear text, graphics and barcodes with improved resolution graphics mode
- Sleep mode to conserve energy

**Rhino 5200 Industrial Labelling Tool**
- DYMO exclusive “hot keys” automatically size, space and format labels for wires and cables, terminal blocks, electrical and patch panels, 110-blocks, vertical and fixed-length applications
- Pre-programmed symbol library puts industry symbols, punctuation, currency and fractions at your fingertips
- Save more than 100 customized labels for on-demand printing at the job site
- Large two-line display - backlight for poorly-lit jobsites
- Smart on-screen alerts help prevent mistakes and wasted labels
- Automatic shut-off maximizes battery life
- Prints Code 39 and Code 128 bar codes on 19mm labels
- Slip-resistant, built-in rubber bumper protects printer against damage from accidental falls and rough conditions

**Languages supported:**

Rhino 5200 Kit
Industrial Labelling Tool

Designed for the professional installer who works in real-world, job-site applications. Applications include datacom, electrical, facility maintenance, professional AV and security.

Languages supported:
WE: English / French / German / Dutch
SE: Italian / Spanish / Portuguese / Turkish
NE: Swedish / Finnish / Danish / Norwegian
EE: Polish / Czech / Slovakian / Hungarian

Hard case kit includes:
● Rhino 5200 printer
● User manual on CD-rom
● Quick reference guide
● 12mm white vinyl tape
● Rechargeable lithium-ion battery pack
● AC adapter

LabelWriter® Accessories

- Dymo LabelWriter® Printers are the fast and easy way to print labels in seconds from your PC.
- Ideal for addressing envelopes and packages, shipping label, diskettes, name badges, files and much more.
- A wide variety of available labels to match most labelling needs.

Note: Please check that the model of LabelWriter you require labels for is able to print the particular size of label. Not all the models in the range are able to print all the different label sizes.

**LetraTAG Metallic tape**

- Decorative
- Long-lasting
- Indoor use
- Tape width 12mm
- Tape reel length is 4m

These 12mm glossy tapes are decorative and long-lasting. The perfect solution to label anything you want at home.

**LetraTAG Plastic Tape**

- Durable
- Wipeable
- Indoor use
- Tape width 12mm
- All tape reel lengths are 4m

**LetraTAG Paper Tape**

- Economical
- Indoor use
- Tape width of 12mm
- Tape reel length is 4m

This 12mm non-glossy tape is easy to peel and cut, with quick-change cassettes for “on-the-fly” labelling. Think of LetraTAG paper tape as the economical solution for labelling almost anywhere, anywhere in your home.

**ID1 Tapes**

For ILP219 and RhinoPRO 5000 Industrial Label Printers

A range of permanent industrial labelling tapes. The material and ribbon is combined in one single cassette. A choice of materials makes them suitable for a wide variety of applications.

**Clear Polyester Tape 1100CL**

Offers a modern and esthetic way of applying labels to more expensive or fancy appliances. The clear labels with the sharp printed black characters which integrate into the structure and shape of the application. Any text is as if it was printed discretely onto the original surface. The adhesive properties of the polyester tapes are excellent: adherence is permanent. Suitable for indoor and outdoor use. The ink is scratch, solvent, oil and UV-resistant.

**Permanent Polyester Tape M1120 - M1140**

This material has been developed for withstanding the most demanding needs in an industrial environment. It combines a very strong adhesive, ideally suited for labelling rough surfaces where the adhesive needs to glide into the irregularities for optimal sticking with a ribbon carefully chosen for excellent printing results. UV, oil, scratch and chemical resistance. Perfect for surfaces requiring outstanding sticking and durability such as highly-textured and powder coated surfaces.

**Flexible Nylon Tape M1300 - M1300YL**

A combination of permanent adhesive and a superior flexible nylon material provides a solution for permanent and legible identification for curved and textured surfaces. The permanent solution for marking cables.

**Coloured Vinyl Tape M1500**

Recognisable from a distance thanks to their strong and deep colours. Vinyl is thin and therefore very flexible. The adhesive properties of the vinyl tapes are excellent. Adherence is permanent. Suitable for indoor and outdoor use. The ink is scratch, solvent, oil and UV-resistant.

**Heat Shrink Tube M1400**

Non-adhesive permanent polyolefin solution to identify and protect wires and cables at the same time. Tubing meets MIL-DTL-23053/5 classes 1 & 3. 3:1 shrink ratio, flame retardant. Length 1.5m

**Coloured Vinyl Tape M1400**

Non-adhesive permanent polyolefin solution to identify and protect wires and cables at the same time. Tubing meets MIL-DTL-23053/5 classes 1 & 3. 3:1 shrink ratio, flame retardant. Length 1.5m

**LetraTAG Metallised tape**

- Decorative
- Long-lasting
- Indoor use
- Tape width 12mm
- Tape reel length is 4m

These 12mm glossy tapes are decorative and long-lasting. The perfect solution to label anything you want at home.

TZ Standard Tapes
- Tape widths of 6, 9, 12, 18, 24 and 36mm
- All tape reel lengths are 8m
- Base tape and ink ribbons for the PT340C are shown at the bottom of the listing

A range of popular TZ tapes in widths ranging from 6mm to 36mm. The listing below shows the Laminated (Gloss) and Non-Laminated types, including Fluorescent.
Brother Labelling Systems - continued

TZ Standard Tapes - continued

Note: Other types of TZ tapes available are Flexi ID (Flexible), which is ideal for marking cables and a strong adhesive type for industrial applications. See within the next listings for details.

BMP™71 Label Printer

The BMP™71 printer replaces Brady TLS 2200™ and HandiMark™ printers by combining the functionality of both into one printer. The BMP™71 printer is compatible with TLS 2200™ and HANDIMARK™ labels.

- Large, full-colour graphical display.
- Speed of 38mm per second.
- Storage space for over 100,000 label files.
- Hundreds of symbols and graphics.
- Multiple font size and auto font size.
- Frame, mirror print and vertical print.

BMP™71 includes:
- Hardcase
- Charger/AC adaptor
- 1 x roll of M71-31-423 white die cut labels
- 1 x R6000 ribbon cartridge

- Roll adapter
- USB cable
- Quickstart guide
- CD including the printer driver, user guide and tutorial.

IDXPERT™ - Wire and Cable Markers
Self-laminating labels are ideal for marking data on electrical cables. Even when the wire/cable is in a fixed position you can still apply the label. It is also possible to label cable bundles. The wire and cable marker’s protected printing offers superior chemical and abrasion resistance. It features a non-printed clear area which wraps around and overlaminates the protected printing to offer superior chemical and abrasion resistance. The wire and cable marker is in a fixed position you can still apply the label. It is also possible to label cable.

Temperature range -40°C to 120°C

Applications
- Continuous Tape for Multiple

BMP®21 Label Printer

The BMP®21 Portable Label Printer is an all-in-one labeler for voice/data comm., electrical and general industrial crews. With label materials designed specifically for harsh environments, the BMP®21 portable printer can quickly and easily create clear, legible labels that stay stuck for years - despite extreme temperatures and curved or highly textured surfaces.

- Easy-to-load cartridges
- Built in touch cell in labels and ribbon allows printer to automatically format label
- 6 font sizes - includes bold, auto sizing and bold auto sizing
- 80 different symbols - 13 specific to voice/data comm.
- Barcoding - choose from 39 and 128

PPT Thermal Transfer Printable Labels

These labels are made of tamper-proof destructible polyethylene, with a permanent pressure sensitive rubber adhesive. They can be custom printed to be used as certification, quality control labels, etc. The permanent thermal transfer printing resists abrasion and harsh environment applications.

If the label is removed, its material structure will cause it to break, thereby indicating evidence of tampering.

Thermal Transfer Labels - EET-G / P

EET-G-4 labels were developed for thermal transfer printers using yellow woven Polyamide with a permanent acrylic adhesive for application on irregular, low-energy, lightly oiled or powder coated surfaces. EET-P-4 labels were developed for thermal transfer printers. Made from these labels, these have a permanent acrylic adhesive and can be used for electronic boards or any other parts that require barcodes, serial numbers and general identification information. Their yellow color and strong resistance to abrasion make them ideal for easy identification in production and other harsh environment conditions. They are resistant to multiple solvents and retain a high level of print quality.

Harmonised Core Colour Introduction Labels

- Label Type: Self Adhesive
- Material: Polyester
- Colour: White
- Legend: Harmonised Core Colour Introduction

**Self-Adhesive Write-On Labels**

- Nylon Cloth
- For industrial, warehouse, QA and safety marking needs
- Easily adhere to clean, dry surfaces
- Removable adhesive remains firmly in place until removed
- Each pack contains 350 labels measuring 16x38mm
- Backing card provides a firm writing surface
- To select the correct label for your requirements, refer to the Farnell Order Code under the desired legend
- The Manufacturers List No. is shown in brackets after the relevant Farnell Order Code.

Tamper-Proof Labels

**Material:** Vinyl

- **Label Type:** Tamperproof
- **Partially Laminated with Clear Polyester
- **Visible
- **Supplied as 100 labels per pack (5 labels per strip, 20 strips per pack)
- **Allows text to be written or typed on, then fully laminated
- **Partially laminated with clear polyester
- **Pre-printed, self-adhesive vinyl labels
- **Temperature resistant from -30°C to 100°C
- **Long lasting adhesive strength
- **Dirt repellent
- **Available in 12.5mm or 16mm diameters.

CP Clear Polyester Labels

CP is a thermal transfer printable clear polyester film with a permanent acrylic adhesive and can be used as an over laminate. Designed for rating plates, nameplates, equipment labels, serial number plates and general labeling applications that require a high durability transparent label. For reliable print performance and durability, use with TE 1330-0607-1200 ribbon.

Price Per Reel

Label Pack Mfrs. Order Code Price Per Reel

SP Self-laminating Polyester Labels

SP labels are thermal transfer printable, low profile translucent polyester film with a permanent acrylic adhesive. Supplied with a white printable area, which is over-laminated upon application with the translucent portion of the label. This ‘self-laminating’ feature better protects the printed area from exposure to oil, solvents, water and abrasion. Excellent conformability to round, irregular or flexible surfaces. Ideal for wire and cable identification, including flat ribbon cables that are subject to repeated bending. For reliable print performance and durability, use with 1330-0607-1200 ribbon.

Price Per Reel

Label Pack Mfrs. Order Code Price Per Reel

Warning Tags

- Rigid, extruded PVC
- Used to identify cables in adverse conditions
- Bound to cables using standard 200mm cable ties supplied
- Supplied in strips of 10 in easy snap out format

Mains Cable

Pack contains: Strip of 10 labels & 20 cable ties

For dimensions see below.
Marker Pens

Engineers Pen
- Spot application of glossy lacquer to labels and touching up PCB’s after repair
- High performance lubricant inflammable solvent
- Offers excellent electrical, mechanical and high temperature properties

Clear Mechanical Oil Pen
- Contains Molybdenum Disulphide for enhanced characteristics

Flux Pen
- Zero halide product
- Does not leave corrosive residue
- Excellent solderability and reliability
- Contains MIL-14256E approved flux

Ultrasolve Pen
- Fast evaporating solvents leaving no residue
- Removes flux, grease and general contamination from most plastics and elastomers
- Ultrasolve Pen - 12ml SMF12P 891-1066

Permanent Marker

Superb new versatile marker. Oil-based pigment ink is permanent on most surfaces. Fade-free, abrasion-resistant, lightfast, water-resistant, and resists attack from bleach or acetone. Suitable for all marking purposes from laundry and fabric, to garden and industrial, to CD’s and paper. Fine bullet tip writes a 0.9mm line.

Permanent Marker - Round Tip
- Made from recycled material (approx 80% of total plastic used is from recycled material)
- Cap & plug in writing colour
- Barrel design in new “environmental look”
- Round tip, stroke width 1.5-3mm

Permanent Marker - Chisel Tip
- Made from recycled material (approx 80% of total plastic used is from recycled material)
- Cap & plug in writing colour
- Barrel design in new “environmental look”
- Chisel tip, stroke width 1-5mm

Permanent Markers

This versatile permanent marker is both water and fade proof. Able to write on Metal, Wood, Plastic, Glass and Stone surfaces, it produces a sharp, glossy finish. Ideal for a variety of industries including, for example, Plumbing, Building and Electrical as well as for general Arts and Crafts use.

Permanent Markers - 300, 330 and 390 Series
- Suitable for lettering, marking or drawing on virtually all materials including metal, glass and plastic
- Permanent, smudge proof, quick drying lightfast waterproof ink
- Wallets contain one each of black, red, blue and green

Permanent Marker

An all round permanent marker for all applications and practically all surfaces. Writes on paper, card, metal, glass, porcelain, plastic, polystyrene, rubber, wood, stone, leather and much more.
- Permanent
- Waterproof
- Quick drying
- Low-odour
- Wear resistant ink
- Round tip, stroke width 1.5-3mm

Permanent Markers - 400 Series
- Suitable for lettering, marking or drawing on virtually all materials including metal, glass and plastic
- Permanent, smudge proof, quick drying lightfast waterproof ink
- Wallets contain one each of black, red, blue and green

The 400 permanent markers are ideal for precise writing and marking. Containing quality tested lightfast, water resistant, smudge proof ink, they are perfect for use in all environments.

- Bullet tip, stroke width 1mm
- Ideal for use at low temperatures, even withstands freezing
- Permanent, quick drying, lightfast ink, ideal for use outdoors
- Perfect for lettering on archival files
- Writes on most surfaces including plastic, wood and paper

The 400 permanent markers are ideal for precise writing and marking. Containing quality tested lightfast, water resistant, smudge proof ink, they are perfect for use in all environments.

- Bullet tip, stroke width 1.5-3mm
- Specialist industrial marker which uses xylene and toluene - These solvents enable permanent marking on greasy or dusty surfaces
- Bullet tip, stroke width 8300 Industrial Permanent Markers

- Writes on most surfaces including plastic, wood and paper
- Perfect for lettering on archival files
- Ideal for use at low temperatures, even withstands freezing

8300 Industrial Permanent Markers

8300 Specialist Permanent Markers

The NLS high-tech marker was developed for industrial corrosion-free marking. Complies with aviation standard LN-9051. It contains permanent, low odour ink with a low halogen and chlorine content. It is accepted for use in ship-building, aerospace industries and metal fabrication.

- Bullet tip, stroke width 1.5-3mm

Industrial Paint Markers

751 and 750 Series

For permanently writing on and marking almost all surfaces. The 8405 metal marker enables metal to be written on while minimising the risk of corrosion (tested in the aerospace industry by British Aerospace Airbus Ltd as per ABP 9-3323 standard Class A). It is also resistant to many solvents and paints.

- Permanent
- Waterproof
- Smudge-proof
- Quick drying
- Fine round tip, stroke width 0.7-0.1mm

Carpenter Pen

- Water based ink
- For fine, permanent lettering on CD-ROMs
- Rub and water resistant once dry
- Bullet tip, stroke width 0.75mm

8400 CD Markers

8760 Jumbo Paint Marker: 5 - 18mm Stroke Width

Ideal for writing, marking and drawing on almost all materials including metal, rubber, plastic and composites. Available in differing stroke widths they provide an opaque lacquer finish in a wide range of colours including metallic shades.

- Low odour ink that is highly lightfast, smudge proof and heat resistant (withstands temperatures up to 100°C)
- Valve controlled ink flow
- Durable opaque lacquer finish is resistant to many chemicals
- Water resistant and quick drying
- Highly visible on dark and transparent surfaces

751 - Bullet tip, stroke width 1-2mm
750 - Bullet tip, stroke width 2-4mm

Metal Marker
Marker Pens - continued

8010 X-Ray Marker

The Radiograph marker is especially for writing and marking on X-ray films. Perfect for use in hospitals, dentists, doctors and veterinary surgeries.

- Permanent, low odour ink
- Fine metal-framed tip, stroke width 0.8mm

8404 Aerospace Marker

Specially developed at the request of the aerospace industry. Quality tested and approved to Bae A68-6-3323 Class A. Contains low corrosion ink for precision engineering. Useful for producing fine lettering in any industrial environment.

- Lightfast, smudgeproof and water resistant ink with no xylene or toluene added
- Resistant to many solvents including acids, alcohols and varnishes
- Ideal for writing on components and circuitry - Also for labelling chemical bottles and laboratory equipment
- Fine bullet tip, stroke width 0.75mm
